### **3 REGULATORY COMPLIANCE**

Federal and state funding are being used for the project development and would be used for implementation, and compliance with federal and state regulations and standards is required. The proposed improvements must also comply with applicable city plans, codes, and policies.

Permits and approvals that may be needed for this project include:

- Local land use permits for construction and construction-related impacts.
- Right-of-way acquisition in accordance with the Uniform Real Property Acquisition and Relocation Act.
- Section 404 Permit from the US Army Corps of Engineers (USACE) under Section 404 of the Clean Water Act. Consultation would be required for impacts to wetlands.
- State Historic Preservation Office (SHPO) consultation and determination of effect to any cultural or historic structures/sites, including the historic New York Canal and Northern Pacific Railroad.
- Federal Aviation Agency (FAA) consultation and preparation of Form 7460-1, Notice of Proposed Construction or Alteration.
- National Pollution Discharge Elimination System (NPDES), Storm water Pollution Prevention Plan (SWPPP), and MS4 permits.
